

Hard'n The Fukup (HTF)

Hasher & Harriette Hardening Fluid

Description:	HTF is designed for extreme hashing conditions. HTF is intended to allow the weakest, piss-ant, gay-arse, limp-wristed Hashers and Harriettes to actually hash without having to be wrapped in cotton wool when the hashing conditions get tough. HTF comes in a convenient can that is easily applied to the Pack. The Pack simply skull 1-2 cans each and the HTF will work instantly.
Applications:	<ul style="list-style-type: none"> • Minimises hugs the GM needs to give to the Hashers • Reduces GM talk like “There, there, it’s going to be alright” • Increases toughness • Minimises gayness
Advantages:	<ul style="list-style-type: none"> • Economical and efficient • Biodegradable • Extremely easy to apply • Increases hashing ability • Improves drinking skills • Unique blend of vodka, rum and petrol • Has a lovely strawberry flavour • Works best with Muka Puki’s FluidStar - NoMoreTears
Appearance:	Amber coloured fluid.
Recommended Treatment:	<p>Tell the Pack it is beer and they will drink the HTF cans all by themselves. If self-ingestion is not possible, then the GM may need to force it into the Pack.</p> <p style="text-align: center;">Harriettes</p> <ul style="list-style-type: none"> • Just grasp the Harriette in a headlock and pour one (1) can of HTF down her throat. Note that it is best to pre-treat the Harriette with NoMoreTears. <p style="text-align: center;">Hashers</p> <ul style="list-style-type: none"> • As a Hasher usually has testicles and generally has a higher resilience to being grabbed in a headlock, simply belt him between the eyes with a full beer can. Then while unconscious, pour two (2) cans of HTF down the Hasher’s throat. When he regains consciousness he will immediately start hashing.
Packaging:	HTF comes in boxes of twenty four (24) or thirty (30) cans. Each can contains 375ml.
